

Our Mission:

To provide manufacturing services that add measurable value and exceed our customers expectations for quality, responsiveness and on-time delivery.

Our Vision:

To deploy a global network of manufacturing operations built upon the principles of leadership, continuous improvement and employee empowerment.

Our Core Values:

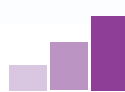

- People
- Customer Focus
- Flexibility
- Excellence
- Integrity

Proven Success Since 1991, Production Technologies has provided complete manufacturing fulfillment solutions to industry leaders like Hewlett-Packard...and with winning results. P-Tech's ability to identify, analyze and implement solutions to customer's needs has put them at the forefront of this rapidly changing industry. P-Tech's history shows they consistently meet every challenge—out performing competitors, and exceeding client expectations. P-Tech is a registered minority owned and managed company with ISO-9002 Certification for Quality Management.

Companies that apply one of P-Tech's advanced value network models (like the one illustrated here) can dramatically reduce manufacturing burdens, reduce turnaround time and management costs, while continuing to deliver superior customer service and product satisfaction.

Re-Focus the Focus Outsourcing manufacturing and fulfillment needs to the experts at P-Tech will allow your company to better focus on its core business operations. P-tech can show you how to lower life cycle costs, improve time to market, reduce capital investment, improve risk management, and gain access to leading edge processes and systems.

Customized Solutions Each client has their own set of unique needs and challenges. P-Tech can effectively design "client specific" processes and solutions that meet your business needs. From start-ups to industry giants, no project is too small and no challenge too great. Assembly, packaging, fulfillment or returns management, P-Tech has the experience and the expertise to get the job done.
